

Middlesex Water Company to Invest \$3.7 Million Upgrading Water Mains in Metuchen

August 6, 2020

ISELIN, N.J., Aug. 06, 2020 (GLOBE NEWSWIRE) -- [Middlesex Water Company](#) (NASDAQ:MSEX) has announced that beginning September 8, it will begin a \$3.7 million project to upgrade drinking water infrastructure in the northwest section of the Borough of Metuchen, New Jersey. Under its 2020 RENEW Program, Middlesex Water Company intends to replace 3.3 miles or (17,500 linear feet) of water mains, as well as service lines, valves and fire hydrants to help enhance overall service quality and improve fire flows. Middlesex Water is coordinating its utility work schedule and road openings with the gas company working in the area so work can be done all at once avoiding subsequent disruptions to customers and area residents.

Streets affected by the Middlesex Water RENEW project are expected to include:

Street	Between
Main Street	Plainfield Avenue and Durham Avenue
Durham Avenue	Main Street and Martin Street
Central Avenue	Forrest Street and Maple Avenue
Elm Court	Main Street and terminus
Talmadge Avenue	Main Street and Center Street
Maple Avenue	Main Street and Central Avenue
W. Chestnut Avenue	Main Street and Central Avenue
Midland Avenue	Main Street and Central Avenue
Columbia Avenue	Plainfield Avenue and W. Chestnut Avenue
Harvard Avenue	Plainfield Avenue and W. Chestnut Avenue
University Avenue	Plainfield Avenue and W. Chestnut Avenue
Princeton Street	University Avenue and terminus
Rutgers Street	University Avenue and Central Avenue
Center Street	Midland Avenue and Durham Avenue
Martin Street	W. Chestnut Avenue and Durham Avenue

As part of the RENEW Program, Middlesex Water will also be installing exterior meter pits at each customer's premise. To ensure the continued safety of our customers and our crews, no access to a customer home will be required during this project and work teams will observe social distancing guidelines.

RENEW is part of Middlesex Water's overall [Water for Tomorrow® Program](#), a multi-million infrastructure investment initiative which consists of various projects designed to replace aging infrastructure and strengthen the Company's water distribution system for continued service reliability, resiliency and water quality. As part of these upgrades, temporary disruptions of service will be necessary for tie-ins and connection of the new infrastructure to the existing system. Customers can expect to be without water service for periods of time ranging from 2-8 hours depending on the nature of the work, and will be notified via phone message and door hanger in advance of the service interruption on their street.

Middlesex Water will always strive to reduce the project impact on residents. The project is expected to take four months with all affected roadways restored in the spring of 2021.

Project work areas, Frequently Asked Questions and Contact Information can be found at www.waterfortomorrowmwc.com/renew or by calling Middlesex Water at 800-549-3802. Middlesex Water is obtaining funding for the project from the New Jersey Economic Development Authority. The Company determines which water mains are to be replaced based on historical record and asset management records. These records include the size and composition of the existing pipe, the date the pipe was installed and other relevant operational data.

About Middlesex Water Company
