April 29, 2022

### Highlights

- Revenues increased \$3.7 million.
- Net Income rose by \$5.2 million.

- Sale of Delaware regulated wastewater subsidiary.

ISELIN, N.J., April 29, 2022 (GLOBE NEWSWIRE) -- <u>Middlesex Water Company</u> ("Middlesex" or the "Company") (NASDAQ:MSEX) a provider of water and wastewater services, today reported first quarter financial results.

#### First Quarter 2022 Results

Quarterly consolidated operating revenues rose \$3.7 million to \$36.2 million compared to the same period in 2021. Revenues in our Middlesex System increased \$3.8 million primarily due to the January 1, 2022 New Jersey Board of Public Utilities approved base rate increase. In our Delaware system, revenues increased \$0.7 million due to customer growth and a one-time customer credit refund issued in the first quarter of 2021. This increase was offset by reduced revenues of \$0.6 million due to the sale of our regulated Delaware wastewater subsidiary in January 2022.

Operation and maintenance expenses for the first quarter of 2022 increased \$0.8 million from the same period in 2021. The increase was related to higher weather-related main break activity in our Middlesex System during the winter months and increased water treatment costs due to weather-driven changes in water quality.

Middlesex recognized a \$5.2 million pre-tax gain on the sale of its regulated Delaware wastewater subsidiary in January 2022.

Income Taxes for the first quarter of 2022 increased \$1.3 million from the same period in 2021 primarily due to taxes on the gain on the sale of our regulated Delaware wastewater subsidiary in January 2022.

Net income for the quarter ended March 31, 2022 increased \$5.2 million, compared to the same period in 2021. Diluted earnings per share were \$0.68 and \$0.39 for the three months ended March 31, 2022 and 2021, respectively.

Middlesex Chairman, President and Chief Executive Officer Dennis W. Doll said, "The gain from the sale of our Delaware regulated wastewater subsidiary and the favorable outcome of our New Jersey rate case, which became effective January 1, 2022, had a positive impact on earnings. While we decided to strategically exit the Delaware regulated wastewater business, we continue to own and operate our non-regulated water and wastewater contract operations business in Delaware. Meanwhile, we added customers in our Delaware regulated water systems to further grow our footprint, positively impacting operating revenues and further growing shareholder value. Our dedicated teams continued to employ their technical skills in ensuring drinking water safety for our customers and to make capital improvements outlined under our Water For Tomorrow® initiative which includes water treatment upgrades and our annual RENEW Program to replace water mains, valves and hydrants," added Mr. Doll.

#### Board Declares Dividend, Discount Remains in Effect

As previously announced in April 2022, our Board of Directors declared a quarterly cash dividend of \$0.29 per common share payable on June 1, 2022 to shareholders of record as of May 13, 2022. Middlesex has paid cash dividends in varying amounts continually since 1912 and has increased its annual dividend rate for 49 consecutive years.

The Company's 3% Discount, in effect on our Common Stock for participants in the Company's Investment Plan on purchases made by optional cash payment or dividend reinvestment, is anticipated to continue until 200,000 shares are purchased at the discounted price or August 1, 2022, whichever occurs first.
