

Middlesex Water Company Reports Fourth Quarter and Full Year 2015 Results

March 4, 2016

ISELIN, N.J., March 04, 2016 (GLOBE NEWSWIRE) -- Middlesex Water Company ("Middlesex" or the "Company") (NASDAQ:MSEX) today reported financial results for the year ended December 31, 2015.

Results for full year 2015 include:

- Revenue growth of 7.6% to \$126.0 million
- Net Income of \$20.0 million, up 8.6%.
- Basic and Diluted Earnings per share up \$ 0.09 or 7.9%

2015 Operating Results

Consolidated operating revenues increased to \$126.0 million for the year ended December 31, 2015, up from \$117.1 million in 2014. The \$8.9 million increase was primarily due to:

- \$5.6 million of increased revenues in the Company's Middlesex System in New Jersey, primarily due to higher weather-driven customer demand and rate increases approved by the New Jersey Board of Public Utilities and implemented in July 2014 and August 2015;
- \$1.8 million of increased revenues in our Delaware system, Tidewater Utilities, Inc. ("Tidewater"), primarily due to higher demand for water by existing customers and the October 2014 acquisition of the water system of Dover Air Force Base;
- \$1.4 million of increased revenues from contract operations due to scheduled fixed fee increases under our public-private partnership operating contract with the City of Perth Amboy, New Jersey ("Perth Amboy") and increased additional services provided under our utility operating contract with the Borough of Avalon, New Jersey ("Avalon"); and
- Operating revenues at all other subsidiaries increased \$0.1 million.

Operations and maintenance expenses for the year ended December 31, 2015 increased \$6.0 million or 10.2%, from 2014. This increase reflects a \$3.4 million increase in employee benefit expenses, primarily due to higher employee healthcare insurance costs and higher retirement plan costs resulting from a lower discount rate than in the prior year and the adoption of new mortality tables reflecting longer life expectancies; higher variable production costs of \$0.9 million due to increased rates for residuals removal in our Middlesex System and increased production in our Middlesex and Tidewater Systems; and \$1.5 million in higher sub-contractor expenditures under our operating contracts with Perth Amboy and Avalon.

Earnings applicable to common stock for the year ended December 31, 2015 were \$19.9 million, or \$1.22 per share on a fully diluted basis, compared to \$18.3 million or \$1.13 per diluted share in 2014.

Middlesex President and Chief Executive Officer Dennis W. Doll said, "We completed another year of successful operational achievements for customers and financial returns to shareholders including a number of infrastructure improvements aimed at further reliability in our systems. In addition, shareholders received the benefit of timely rate relief granted by our regulators in our Middlesex System in the third quarter of 2015."

Fourth Quarter 2015 Results

For the three month period ended December 31, 2015, operating revenues were \$30.9 million, up 10.0% from \$28.1 million for the same period in 2014. Operations and maintenance expenses were \$16.1 million, up 13.5% from \$14.2 million for the same period in 2014. Net income increased to \$4.6 million, up 20.3% from \$3.8 million for the same period in 2014.

Quarterly Dividend Declared

As previously disclosed in January 2016, the Board of Directors of Middlesex Water Company declared a quarterly cash dividend of \$0.19875 per common share payable on March 1, 2016 for shareholders of record as of February 12, 2016. This is the second quarterly dividend payment following a 3.25% increase declared in December 2015. The Company has paid cash dividends in varying amounts continually since 1912 and increased its dividend for the forty-third consecutive year in 2015.
