## MIDDLESEX WATER REPORTS THIRD QUARTER FINANCIAL RESULTS

### Third Quarter Highlights

- Revenues Increased 5.7%.
- Net Income Rises by 14.6%

Iselin, NJ, (October 30, 2020) - Middlesex Water Company (“Middlesex” or the “Company”) (NASDAQ:MSEX) a provider of water and wastewater services, today reported diluted earnings per share of \$0.72, for the three months ended September 30, 2020, as compared to \$0.66 per share in the same period in 2019.

### Third Quarter Results

The Company reported consolidated operating revenues of \$39.9 million for the three months ended September 30, 2020, as compared to \$37.8 million for the same period in 2019. The \$2.2 million increase in operating revenues was largely driven by higher water consumption by our retail and wholesale contract customers in the Middlesex System in New Jersey, customer growth in our Delaware systems and additional non-regulated revenues realized from our new contract, which commenced July 1, 2020, to operate and maintain the Borough of Highland Park, NJ water and wastewater systems.

“As the pandemic continues, our employees remain focused on delivering operational excellence and ensuring quality utility services in which our customers can have the greatest confidence,” said Middlesex Chairman, President and Chief Executive Officer Dennis W. Doll. “In addition to maintaining practices that help keep our employees and customers safe, we’re collaborating with state officials to help mitigate the financial consequences of the pandemic to customers as related to their water service and their ability to pay any outstanding balances,” added Doll. “We were also honored to be recognized recently with two awards – Middlesex Water Company was named a 2020 Top New Jersey Workplace and our Delaware subsidiary, Tidewater Utilities, Inc, was named a 2020 Superstar in Business. We thank our employees for their efforts that contribute to our winning company culture. Their dedication and commitment becomes even more apparent and critical during these uncertain times,” added Doll.

Operation and maintenance expenses for the three months ended September 30, 2020 increased \$0.3 million from the same period in 2019. The increase was related to higher variable production costs due to increased customer water consumption and higher actuarially-determined employee benefit plan expenses.

---

Net income for the three months ended September 30, 2020 was \$12.7 million, a \$1.6 million increase from the same period in 2019. Diluted earnings per share were \$0.72 and \$0.66 for the three months ended September 30, 2020 and 2019, respectively.

### **Nine Month Results**

Consolidated operating revenues for the nine months ended September 30, 2020 were \$107.0 million, an increase of \$5.1 million from the same period in 2019, primarily due to increased customer water consumption in our Middlesex and Delaware systems and customer growth in Delaware. For the nine months ended September 30, 2020, diluted earnings per share were \$1.71 as compared to \$1.55 for the same period in 2019.

Operation and maintenance expenses for the nine months ended September 30, 2020 increased \$2.2 million from the same period in 2019 due to higher variable production costs related to increased customer water consumption and higher employee benefit plan expenses.

The benefit from income taxes for the nine months ended September 30, 2020 increased \$1.6 million from the same period in 2019, primarily due to the approved regulatory accounting treatment of tax benefits associated with the adoption of Internal Revenue Service tangible property regulations.

### **Board Declares Dividend**

As previously announced on October 21, 2020, our Board of Directors declared a cash dividend of \$0.2725 per common share payable December 1, 2020 to shareholders of record as of November 13, 2020.
